

## I Know I Never Will

Johnny Paycheck

I may get tired of lots of things from day to day  
New things will soon get old  
I'll throw them away  
But here's one thing you can depend on being true  
I know I never will grow tired of loving you

I know I never will grow tired of loving you  
And may the thousandth kiss still be as sweet  
As first we knew  
My heart could live to be a hundred and then two  
I know I never will grow tired of loving you

As time goes by the world will change from day to day  
Your love is something that time can't take away  
Down in my heart no matter what I may go through  
I know I never will grow tired of loving you

I know I never will grow tired of loving you  
And may the thousandth kiss still be as sweet  
As first we knew  
My heart could live to be a hundred and then two  
I know I never will grow tired of loving you
