I'm Remembering

Johnny Paycheck

I'm remembering when I smiled like this
I'm reliving a first sweet warm kiss
With some memories the two of us know
I'm remembering and loving you so

Now we're sitting inside some little coffee place
Don't know the name of it all I can see is the smile on your fa
ce
Now I'm hearing some words whispered l-ow
And I'm remembering and loving you so

I'm remembering it's all in my heart
The memories we've made from the start
There's a love song we heard long ago
I'm remembering and loving you so
