

I Take It On Home

Johnny Paycheck

Sometimes at the end of the day
Before I head home I make a stop along the way
Have a couple of drinks wait for the five o'clock rush to go by
And almost always there's a lady and
At's so hard when she starts coming on
But I back it on up turn it around and take it on home

I take it on home to the woman who sticks by me
'Cause I believe she'd do the same if she was me
And I wouldn't know where to turn to if she was gone
So when I ain't a workin' I don't hang out I take it on home

Sometimes I've gotta go out of town
And I'll be gone for couple of days
And this buddy of mine well he's a hound in the first degree
And almost always there's the ladies
And it ain't easy boys when you're out and all alone
But I back it on up turn it around and take it on home

I take it on home to the woman who sticks by me...
Yeah I back it on up turn it around and take it on home
