

I've Got a Yearning

Johnny Paycheck

I've got a yearning to hold you tight
At burning desire I live with day and night
Everything I wont lose keeps on hanging on
This feeling isn't leaving and by now it should be gone

I keep on thinking those thoughts that keep making me want you
all the time
I should be trying to find me a way I can drive you from my min
d
I know that you wanted to give and I know that you gave all you
could
Wish I could accept what is over and done with for good

But I've got a yearning to hold you tight
At burning desire I live with day and night
Everything I wont lose keeps on hanging on
This feeling isn't leaving and by now it should be gone
