

## Just Makin' Love Don't Make It Love

Johnny Paycheck

I must admit that life with you has been pretty good  
And I'd go all the way with you if I only could  
But I can't lie to you  
And say you're all I bring me love  
'Cause making love don't make it love

Just living together in a house  
Don't make a house a home  
There's so much more you have to have  
And without it all hope is gone

When we started this we both agreed  
There would be no strings  
But lately all I've heard is talk of wedding rings  
And there's no way I can say I love you  
Wish there was  
Yes making love don't make it love

No there's just no way I can say I love you  
I wish there was  
Making love don't make it love  
'Cause making love don't make it love
