

## (Stay Away From) The Cocaine Train

Johnny Paycheck

Well when I was a young lad  
Damned if I didn't know it all  
When I was young like you  
You know I knew it all  
But if ya listen to an old dog bark  
Ya might see them holes before ya fall

I'm gonna lay somethin' on ya' and then I'm gonna move on out  
I'm gonna lay somethin' on ya' and then I'm gonna ease on out  
And you can take it or leave it  
But I know what I'm talkin' 'bout

Yeah, 'cause I done felt the pain  
And I've been caught in the damned ol' rain  
And, Lord, it's hard ta get off  
The old white train  
Well, the old white train costs a lot to ride  
Your soul, your heart and even your pride  
And it'll damn sure forever-more  
Freeze your brain  
Take a little advice  
Stay away from the cocaine train

Yeah, 'cause I done felt the pain  
And I've been caught in the damned ol' rain  
And lord it's hard ta get off  
The old white train

Yeah, the old white train costs a lot to ride  
Your soul, your heart and even your pride  
And it'll damn sure, forever-more honey  
Freeze your brain  
Take a little advice  
Stay away from the cocaine train  
Yeah take a little advice  
And stay away from the cocaine train  
Cocaine train!
