

## Talk About Me

Johnny Paycheck

You think you have her love completely  
You think she lives her life for you  
You say she never thinks about me  
Talk about me and see what she'll do

Watch her eyes when you mention my name  
Watch her eyes look close she still feels the same  
She won't cry yet she'll hide my memory's there to stay  
Talk about me and see what she'll say

You say that she never loved me  
You say she waited just for you  
You say she never speaks about me  
But talk about me and see what she'll do

Watch her eyes when you mention my name  
Watch her eyes look close she still feels the same  
She won't cry yet she'll hide my memory's there to stay  
Talk about me and see what she'll say  
Talk about me and see what she'll say
