

# The Highlight of '81

Johnny Paycheck

There's a new man in the White House  
USA is proud and strong again  
We cheered our people home at last  
From fourteen months of prison in Iran  
TV went to Saturn's rings  
And found there's something new under the sun  
And honey I found you  
The highlight of '81

All the papers missed the biggest story of the year  
Not a solitary word about me and you  
The headlines didn't even say how time stood still  
When I laid down beside you and you said you loved me too

The baseball strike was over  
And once again the umpire said play ball  
The royal couple tied the knot in London  
And the whole world watched it all  
The Raiders won the Super Bowl  
And the shuttle put the Russians on the run  
But I found you  
The highlight of '81

All the papers missed the biggest story of the year  
Not a solitary word about me and you  
The headlines didn't even say how time stood still  
When I laid down beside you and you said you loved me too

A lot of great things came about this year  
And some may fade in years to come  
But honey never you  
The highlight of '81
