

## (To Be So Bad) She's Still Lookin' Good

Johnny Paycheck

I walked into our favorite honky tonk today  
And right before my eyes there she stood  
She smiled and looked right through me  
And I thought as she danced away  
To be so bad she's still looking good

To be so bad she's still looking good  
I know I'd take her back if I thought I could  
After all this time my heart still hurts  
Like I knew it would  
'Cause to be so bad she's still looking good

Loving her is something I know I won't forget  
'Cause I can't erase the good times like I should  
This hurt I feel is here to stay  
While she has no regrets  
And to be so bad she's still looking good

To be so bad she's still looking good
