

# Touch My Heart

Johnny Paycheck

Touch my heart feel the hurt  
The pain and misery  
Then tell me again what love has done for me  
If you lived in my world awhile  
You'd soon forget how to smile  
For here there's a million ways to cry  
If you had my eyes you could see  
How a woman changed my destiny  
I'm a man who can't live and yet can't die

See these hands of mine and how they shake  
My nerves are gone 'cause I can't break  
The habit of remembering yesterday  
Another love couldn't stop this ache  
I know I'd make the same mistakes  
Her memory's always standing in my way

Touch my heart feel the hurt  
It's destroying me  
I've tried but I can't seem to shake her memory  
Touch my heart feel the hurt  
The pain and misery  
Then tell me again what love has done for me
