

# Without You

Johnny Paycheck

Loving you is all I've ever needed  
My world's all you've ever cared about  
The longer we're together the more I know  
You're the one thing I can't live without

And I wake up and find you every morning  
Kissing me into another day  
And every now and then I find me wondering  
How I deserve to be loved this way

Without you there'd be no songs to sing  
There'd be no dreams to build and be proud of  
Without you life would be unbearable  
'Cause without you there's no such thing as love  
Without you there's no such thing as love  
Without you there's no such thing as love
