

Bounce

Johnny Rain

Say it feels alright
Say it feels alright
When the lights engage you
What have we become?
Are we all endangered beasts?
(Creeping)

Well we won't go to sleep tonight
I wanna hear the speakers blazing
No occasion, til sunrise
And we won't go to sleep tonight
We'll party til the roof is caving
Can't take it back now, let's get faded
Take what's in your hand
Throw it back and watch it

Bounce!

I know you feel it
I know you feel it creeping
And I'm down to live
Yeah I'm down to live
But never have I felt higher
Than I do whenever I'm around you
Oh love, are we all endangered beasts?

Well we won't go to sleep tonight
I wanna hear the speakers blazing
No occasion, til sunrise
And we won't go to sleep tonight
We'll party til the roof is caving
Can't take it back now, let's get faded
Take what's in your hand
Throw it back and watch it

Bounce!
