Johnny Rain

Pulling up with the top down
Running my town, bitch I'm way too good
Double cupped, puffing on loud
Screaming out now we don't give a fuck
With my girl, and I'm on one, and she on two
And we're way too high
If you're lit, and you're feeling this
Put your middle fingers up in the sky
Saying

Mix some pills and weed, don't wish me luck
We're too young for us to give a fuck
Coke and Hennessy to fill my cup
And I understand, we're on the loose
So who gives a damn
She wants to...
Dance

Think I'm going way too high
I see diamonds in the sky
I got lost on the lift, oh
I can't wait til we get home
Oh I think the feelings right
Say

Mix some pills and weed, don't wish me luck
We're too young for us to give a fuck
Coke and Hennessy to fill my cup
And I understand, we're on the loose
So who gives a damn
She wants to...
