High School

Johnny Rain

You came a long way from heaven
To be here with me
A fire couldn't keep me away from my baby (no how)
When the light show's on
It's all in your eyes
If I'm stuck like this
Then I'm fucked if I'm ever without you

(Woohoo, woohoo)
This sex makes me feel so good
(Woohoo, woohoo)
Faded but I still might
Can we make it feel like high school?

9 shots to go, hell if I hit the road
(Like high school)
Might rock your soul, long as I get to roll
(Like high school)
Red cups in the air, yelling we don't care
(Like high school)
Live your life, fuck your fears
Live your life, fuck your fears

Pray your love won't let me down
Sail, sail on
I always find my way to you
Pray someday I show you how
For now I'm running wild in a field
So far away

(Woohoo, woohoo)
What a life how it goes
Let your body free, put a hold on me
(Woohoo, woohoo)
Grab a light, have a smoke
Faded but I still might
Can we make it feel like high school

9 shots to go, hell if I hit the road
Like high school
Might rock your soul, long as I get to roll
Like high school
Red cups in the air, yelling we don't care
Like high school
Live your life, fuck your fears
Live your life, fuck your fears

All you are is all I've ever wanted
All you are is all I've ever wanted
All you are is all I've ever wanted
All the stars for us
