

# I Do

Johnny Rain

There's a body in it  
It's the fire  
Should I let it burn?  
If I get you, it's alright?  
It's all in the name of us, so it's alright  
'Cause it's our life  
To the stars

Let's light up the night and show them what a life could be  
A beauty on fire as clear as only eyes can see  
A promise that I will always wake up to you  
Just say "I do"

I don't have much to give  
But I pray for the sky and the stars  
And your mad hot breath in the morning  
And you love and your sex in the car or the bed or the sauna  
Or all three  
If ever anything on your mind, you can call me  
I promise to be there if you ever get lonely  
I promise you that you'll never again be lonely  
Lonely

It's all in the name of us, so it's alright  
It's alright  
And it's from the God above  
But it's all mine

Let's light up the night and show them what a life could be  
A beauty on fire as clear as only eyes can see  
A promise that I will always wake up to you  
Just say "I do"  
Just say "I do"
