

OUTSIDE

Johnny Rain

Feeling kinda lost in my mind
I think I'm losing time

We used to say
Your as good as your ways
And it's heartless outside
Heartless outside
Needless to say
You're no good for me babe
But it's heartless outside
Heartless outside

Need some patience
Plenty of girls would say so
Plenty of guys, they show you love
(Show me love though)
Plenty of guys ain't like us, yeah
Living a lies no fun
(But get it how you see I guess)
Rid all your fears and find Love
Similar here, the wild ones
Gimme a thizz and vibe on
We know there's no rewind though
Each pill, it's own reminder
She's hardly holy I know
Things clearly only I eye
I saw signs that only I know
These days are so recycled
These days it's only I

We used to say
Your as good as your ways
And it's heartless outside
Heartless outside
Needless to say
You're no good for me babe
But it's heartless outside
Heartless outside

Are you riding or not?
Riding or not?
Riding or not?
Yeah yeah yeah
Are you riding or not?
Riding or not?
Riding or not?
Yeah yeah yeah

She just wanna party, I'm in OC
Million Dollar Party for the whole team
Mirrors on the counter, are you nosey?
Knew I'd be up but are you rolling?
Why am I the only one who's watching?
Peaking while I'm feeling on your body
Peaking but this henny got me locked in
You knew my time before I walked in
And you can't feed felines that can't be tamed

She slides and every night it's another game
Then every time I see your smile my attitude change
I saw the way you looked at me at Kaskade
We suffered hella buffers when your man came
I know that nigga hate me foreal

We used to say
Your as good as your ways
And it's heartless outside
Heartless outside
Needless to say
You're no good for me babe
But it's heartless outside
Heartless outside

On this side, yeah
On this side, yeah
We gon add it til the money paint the inside, yeah
Did his bitch slide? yeah
With her friends, hell yeah
Shoulda been there but your love was on the fence, yeah yeah
What is that side? huh?
Not this side, no
Chich brought a xan, I ain't wanna get tired
Mike brought a tab, got me like a air fryer
Shawty got a ass on her like the Empire
Got her ass all over me, the entire
Throw it fast, Ima catch it if you just let me
Bet your new nigga's sitting on the bench, right?
Pow pow, when I shoot I never misfire
Even the kings tried to line me, you can't sire
I'll come back with a bigger army and chant fire
I'll come back with a bigger army and

Every time I want love, love is backfired
Bitches say they want love but it's satire
