

Roll with the Ocean

Johnny Rain

Somebody better lock me up
The devil's nectar got a hold on me
I'm gonna fill my cup
Let it burn, let it burn suddenly
Suddenly I don't give a fuck about it

And it feels like I'm going slow motion
And I still fight the voice in my soul, run
Cause it feels good
It still should
Roll with the ocean

I know you want it
Feel the pressure of the seven seas
I'ma show everybody
Let the candy bring you to your knees
And I won't give a fuck about it

Cause it feels like I'm going slow motion
And I still fight the voice in my soul, run
Cause it feels good
It still should
Roll with the ocean

I got my jack and coke
A glass of OD
She's my antidote
She has to blow me
Got a lot of coke
And a lot of codeine
And a lot of codeine
And a lot of codeine
