

Seventeen

Johnny Rain

Now I been down here taking shots
This broken heaven is all I got
When I'm so low, I'm solo
With rent due at the top of the month
And if I can't pay it
Girl I don't know, I don't know
I see Arms in the sky
Lights in the air
The crowd singing yeah
Lost in your eyes
I can't call it
But you look at me like I give you butterflies

Oh please
When we were young, you were running through the streets
Just a girl trying to be like what she sees
Just a boy dying to feel like seventeen
Oh, Seventeen

Young and in Love

And I walked there every month just to know you were alright

And so it goes
When life feels so on left foot
I dream of your love
That's my happy place
And it feels like we've seen all of california
I think we lost ourselves on the road
But I still care for you yeah yeah
I'll always have it for you
Baby some things ain't by choice
When you love someone

Oh please
When we were young, you were running through the streets
Just a girl trying to be like what she sees
Just a boy dying to feel like seventeen
Oh, Seventeen
Young and in love

And I keep loving you

I'm on top of the world tonight
I'm on top of the world tonight
I'm on top of the world tonight
I'm on top of the world tonight
