

# Brings Me Home

Johnny Reid

When I'm far away  
I miss you everyday  
when I'm gone too long  
tired of being strong  
I send my heart  
back to where you are  
your love brings me home

when you're not by my side  
I lie awake at night  
all I can think about  
is what I can't live without  
and as I fall asleep  
I keep you with me  
and your love brings me home

brings me home - brings me home  
to the place where I belong  
there to guide me through the storms  
your love brings me home

when I'm out on the road  
and time is moving slow  
when it's dark outside  
I just close my eyes  
like a shining star  
darlin' there you are  
your love brings me home
