

# Just Gettin' Started

Johnny Reid

These lines on my face  
Tell the tales of a thousand stories  
All the days gone by  
The nights draped in glory  
Who ever said love  
Is only for the young hearted  
Well, they might be right  
'Cause it feels like we're just gettin' started

We've come a long, long way  
Over mountains roads and rivers  
And like you did back then  
You still make my body shiver  
When I fell for you  
Girl, I didn't fall half-hearted  
When it comes love  
Still feels like we're just gettin' started

Just gettin' started, right here right now  
Just gettin' started, there's no slowing us down  
When it comes to love  
It feels like we're just gettin' started

We don't measure our time  
By watching that old clock ticking  
We don't sit around here  
Wondering what we might be missing  
Every second of the day I get to love you  
I do it whole-hearted  
When it comes to love, it feels like we're just gettin' started

Just gettin' started, right here right now  
Just gettin' started, there's no slowing us down  
When it comes to love  
It feels like we're just gettin' started

Nobody knows  
Exactly what tomorrow might bring  
But if the sun comes up  
You'll still be my everything

Who ever said love  
Is only for the young hearted  
Well, they might be right  
'Cause it feels like we're just gettin' started

Just gettin' started, right here right now  
Just gettin' started, there's no slowing us down  
Just gettin' started, no end in sight  
Just gettin' started with you tonight  
When it comes to love  
It feels like we're just gettin' started  
Like we're just gettin' started
