

Let's Have a Party

Johnny Reid

Hello people
From all around the world
I hope you can hear me
All of you boys and girls
I got an invitation
An invitation for you
Go tell everyone you know
'Cause there's no time to lose

Let's have a party
Let's let it out
Let's have a party, people
Let's have a party right now

Yeah I'm talking to the young at heart
Everybody everywhere
To those of you who like to rock 'n' roll
Shaking like you just don't care
It's time to move to the music
Sing along and all get down
My people tell me are you ready?
Turn it up and let's get loud

Let's have a party
Let's let it out
Let's have a party, people
Let's have a party right now

Let's have a party
Let's let it out
Let's have a party, people
Let's have a party right now

Let's have a party
Let's let it out
Let's have a party, people
Let's have a party right now

Let's have a party
Let's let it out
Let's have a party, people
Let's have a party right now
