

Love Thing

Johnny Reid

Baby tell me do you feel the shiver
Rolling up and down my spine
Tell me does your body tremble
Every time your lips touch mine

Baby it's a love thing
Baby it's a love thing
I think we got ourselves a love thing
Yeah

Now tell me do you feel the fever
Burning underneath my skin
Tell me do you feel the fire
Rising up deep within

Baby it's a love thing
Baby it's a love thing
I think we got ourselves a love thing
That's what it is
So feels good baby

(Yeah, yeah)

Now tell me does your body tingle
When I whisper in your ear
Tell me does the world start shaking
Every time I pull you near

Baby it's a love thing
Baby it's a love thing
I think we got ourselves a love thing
Yeah, that's what it is, girl

Oh it's a love thing
Baby it's a love thing
Yeah, yeah, it's a love thing
I think we got ourselves a love thing
Yeah, that's what it is
Sure feels good baby

Ain't nothing but a love thing
Don't need no definition darling
My God I said it's a love thing
Don't need no explanation baby
Yeah, it's just a love thing
Keep it simple baby
