

My Old Friend

Johnny Reid

Today I said goodbye to my old friend
I pray some day we get to meet again
under one more clear, blue sky
up there where the eagles fly

and/where/and we'll go walking in the sunshine
with a big smile on our face
race the river to the ocean
go splashing in the waves
and I'll wrap my arms around you
we'll be together once again
and I'll tell you how much I've missed you
my old friend

yeah, I know you're up there looking down
on that rainbow bridge we talked about
there's a place for me and you
somewhere up there behind the moon
