

# The Light In You

Johnny Reid

I don't know you  
You don't know me  
We live different lives  
Dream different things

But after the places, all the faces  
All the wonders of the world I have seen  
I believe, I believe

The light in you  
Is the light in me  
The longer I live  
The deeper I believe  
The closer we stand  
The deeper we will be  
The light in you  
Is the light in me

There was a time  
Thought I was alone  
Now looking back  
I was so wrong

I thought the world  
Was full of strangers, full of dangers  
Full of everything [?] see  
But somewhere in the darkness where my heart is  
Love threw a spark and set a fire to me  
Now I see

The light in you  
Is the light in me  
The longer I live  
The deeper I believe  
The closer we stand  
The brighter we will be  
Oh the light in you  
Is the light in me

The longer I live  
The deeper I believe  
That the light in you  
The light in you  
That the light in you  
Is the light in me
