

This Is Not Goodbye

Johnny Reid

I left my hometown
Years ago when the call of the highway found me
Tonight I slowed down
Long enough to let all this love surround me

This road that I'm on is still unwinding
Somewhere beyond the horizon

This is not good=bye or the end
Let me tell you my friend
I'll keep you forever in my heart
Till I see you again
May our song never end
Till then remember this is not goodbye

This life that I lead
Has always been a dream worthwhile chasing
A night like tonight
Made my next breath worth the taking

This road that I'm on is still unwinding
Somewhere beyond the horizon

This is not good=bye or the end
Let me tell you my friend
I'll keep you forever in my heart
Till I see you again

May our song never end
Till then remember this is not goodbye (no no no)

This is not good=bye or the end
Let me tell you my friend
I'll keep you forever in my heart
Till I see you again
May our song never end
Till then remember this is not goodbye

This is not good=bye or the end
Let me tell you my friend
I'll keep you forever in my heart
Till I see you again
May our song never end
Till then remember this is not goodbye

This is not good=bye or the end
Let me tell you my friend
I'll keep you forever in my heart
Till I see you again
May our song never end
Till then remember this is not goodbye
