

You Got Me

Johnny Reid

You got the moon
I got the stars
And we got tonight, baby
Right in our arms
When that cold wind comes
Howling 'cross the sea
I got you, and you got me

I got your heart
You got my soul
And your eyes
They are the way
Of letting me know
When that cold wind comes
Howling 'cross the sea
I got you, and you got me

I got you, and you got me
And as long as we're together
We got all we'll ever need
From the sunrise to the sunset
Through the night and in our dreams
I got you (Yeah I got you), you got me

I got you, and you got me
And as long as we're together
We got all we'll ever need
From the sunrise to the sunset
Through the night and in our dreams
I got you (Yeah I got you), and you got me

(Oh yeah)
I got you, you got me
