

A Good Love Is Like a Good Song

Johnny Rivers

I was a lonely soul, low voice in the crowd
Just whistling sadly with my head always bowed
I had many a thing of which to be proud
And then I saw her and my heart sang out loud

Oh, a good love is like a good song
It grows on you 'til it's so strong
It never leaves you, it never goes wrong
You know a good love is like a good song

We introduced ourselves, my heart simply soared
We walked and talked about the things we adored
Within the rhythm of the rain as it poured
I heard the echo of an old familiar chord

It said a good love is like a good song
It grows on you 'til it's so strong
It never leaves you, it never goes wrong
You know a good love is like a good song

I said I loved her and she said she loved me
To me, those words were like a sweet symphony
We were the happiest duet you'll ever see
'Til I found out we loved in three-part harmony

And a good love is like a good song
It grows on you 'til it's so strong
It never leaves you, it never goes wrong
You know a good love is like a good song
A good love is like a good song
