

Break Up

Johnny Rivers

Well, honey who's that guy you been seein' most every day
You know it shouldn't be allowed to come and take my baby away
Honey, why don't you wake up, all we gotta do is make up
Come on baby, don't break up with me

Well, I saw you walkin' with him just the other night
I almost flipped when I saw him squeeze you tight
Well honey, why don't you wake up, all we gotta do is make up
Come on baby, don't break up with me

Don't you remember the times you were so true
He came along and looked at you?
Don't you remember when you said you loved me so?
But baby, please don't go

You look at him, you look at him, I know you gonna be true
'Cause you like him, I know he likes you
But baby, why don't you wake up, all we gotta do is make up
Come on baby, don't break up with me

Don't you remember the times you were so true
He came along and looked at you?
Don't you remember when you said you loved me so?
But baby, please don't go

You look at him, you look at him, I know you gonna be true
'Cause you like him, I know he likes you
But baby, why don't you wake up, all we gotta do is make up
Come on baby, don't break up with me
Come on baby, don't break up with me
Come on baby, don't break up with me
