

# Breath

Johnny Rivers

Some of love you gave to me  
I can hear in your melody  
Paging your life for me to see  
To form your brighter's destiny

It's your loving touch so fine  
Running shivers up and down my spine  
Didn't we said we're friend of mine  
Couldn't have get a better time

Many ways I know I love you  
Over and over we go back again  
Different changes and many seasons  
Right knowing breathing out and in

When times get hard I get robbed sleep  
Count my worries still are counting sheep  
Lately I've been troubled deep  
Feelings inside I'm no longer keep

I feel that time will slow  
But I even stop and let me go  
All this feeling only help me to show  
The different ways to let you know

Many ways I know I love you  
Over and over we go back again  
Different changes and many seasons  
Right knowing breathing out and in  
Right knowing breathing out and in
