

# Don't Go Lovin'

Johnny Rivers

Everytime I hear your name  
I get cool shivers down my spine  
Oh I'm stuck in love, can't complain this time  
I really don't know what to say  
Can't believe it's true

Like the song I heard somewhere  
Oh I'm stuck on you

So don't go lovin' anyone else but me  
Cause how much closer could we ever be  
I go out of my mind, only for you  
Your sweet potion brings me to  
So don't go lovin' anyone else but me

Sometimes the wine starts talkin' back  
Spills and stains my clothes  
You pass the conversation by  
Through the door you go

But if I believe in anything  
I believe in you  
I feel the healing hand of love  
Can you feel it too?

So don't go lovin' anyone else but me  
Cause how much closer could we ever be  
I go out of my mind, only for you  
Your sweet potion brings me to  
So don't go lovin' anyone else but me

This fragile heart needs no one else  
This fragile heart needs no one else  
This fragile heart needs no one else, no no

So don't go lovin' anyone else but me  
Don't go lovin', don't go lovin' babe  
Cause how much closer could we ever be  
I go out of my mind, only for you  
Your sweet potion brings me to  
So don't go lovin' anyone else but me  
Anyone else but me  
Anyone else but me
