## Don't Let The Rain Come Down

## **Johnny Rivers**

Stopped by your house on my way home Knocked on your door - you were gone I was standin' there at a quarter to three Thinkin' woman oh woman, where can you be?

Don't let the rain come down Don't let the rain come down Don't let the rain come down In this heart of mine

I try to believe love will pull us through But do you love me, like I love you? I try to believe everything you say Oh, but one more storm gonna wash my heart away

Don't let the rain come down Don't let the rain come down Don't let the rain come down In this heart of mine

If you been cheatin', if you been lyin'
I don't want to see
Lord, I'd rather be blind

Don't let the rain come down Don't let the rain come down Don't let the rain come down In this heart of mine
