

It'll Never Happen Again

Johnny Rivers

I remember
Our first affair
All the pain
Always rain
Around my eyes
It'll never happen again
It'll never happen again

Every time
I leave you alone
I remember times
I couldn't come home
It'll never happen again
It'll never happen again

Why can't you be
The way
I want you to be
Why can't you see
You've got to change
And love me

I remember
Our first affair
All the pain
Always rain
Around my eyes

It'll never happen again
It'll never happen again
