

Rotation

Johnny Rivers

Down goes the daily sun
Taking daylight with it when it's gone
Longer shadows bend into the night
Wait for morning to regain the light

Sunrise we do depend
On the morning light as it ascends
Brilliance from the dusk is born
into daylight that it now adorns

[Chorus:]
Rotation
Spinnin' spinnin round
Rotation
Power so profound
Turning without sound
I'm standing on the ground
Speelbound

Round and round we go
Where we come from no one knows
Time spins the karmic wheel
Endless secrets waiting to reveal

Inside where no one hears
Silent hours take away the years
Ticking seconds slowly fade away
Come tomorrow to be yesterday

[Chorus]

Down goes the daily sun
Taking daylight with it when it's gone
Longer shadows bend into night
Wait for morning to regain the light

Love is how we came to be
And only love will set us free
Like a sailor sailin' on the sea
The spinnin' wheel brings you back to me

[Chorus]
