

## Sail On

Johnny Rivers

With all your world and possessions  
Do you have time to make up your mind?  
All your recalling sessions  
Is there an answer you're trying to find?

Does the music come with consolation?  
Is the singer all you ever wanna be  
I promise I will love to listen  
Every song you'll wanna play on me

Sail on while you're waiting (while you're waiting)  
Sail on past the storm on your sea  
Sail on while the night birds are singing  
Portraits for a lonely magazine

The power of your songs you ever whining  
And it grows more timeless day by day  
Every hour the illness grows stronger  
Until your life seems like a final play

For you are a dealer of emotion  
And you can deal with any heart that you please  
And all the lovers stand to tension  
Hey babe, I'm the only one down on my knees

Sail on while you're waiting (while you're waiting)  
Sail on past the storm on your sea  
Sail on while the night birds are singing  
Portraits for a lonely magazine

Sail on, girl, you're winning (girl, you're winning)  
Sail on past the storm on your sea  
Sail on while the night birds are singing  
Portraits for a lonely magazine
