

Shelter In The Storm

Johnny Rivers

When your tired
When your troubles seems more than you can afford
And you feel, you feel you need a friend
Someone to share the load
When your sky grows cloudy
I want you to know you got a friend that is true

Just like the shelter in the time of storm
I'll see you through, that's what I'll do

When your dreams are scattered
Just like the wind-blown sand
And you feel, you feel you need a friend
I'll be there, reach out your hands
When the rain starts to fall
I'll be there just to hold on to

Like the shelter in the time of storm
I'll see you through, that's what I'll do
Like the shelter in the time of storm
I'll see you through, that's what I'll do

I will see you through
I'll see you through your hangups
I'll see you through your fears
I'll see you through your sad times
Honey, I'll dry all your tears
And when the tempest is raging
I want you to know you got a friend that's true

Just like the shelter in the time of storm
I'll see you through, that's what I'll do
Just like the shelter
In the time of storm
I'll see you through
That's what I'll do

I will see you through
I will see you through

I want you to know you got a friend that's true
Just like the shelter

I will see you through
I will see you through
I will see you through
I will see you through

I want you to know you got a friend that's true
Just like the shelter

I will see you through
I will see you through
I will see you through
I will see you through

And when the tempest is raging...
