

Twin Sister

Johnny Stimson

Yeah

I could never tell you two apart
'Cause she's as beautiful as you
But there's a hole inside her heart
And lately I don't even know which one I've got
It's intuition double vision
Thought you were the only one

I swear

I can't tell the difference even when you're in my arms
It's not fair 'cause you're the only one I want

It's like I'm talking to your twin
Talking to your twin
Talking to your twin sister

Looks like I'm tangled up again
Tangled up again
'Cause you got me so twisted

And baby I don't wanna lose you
But you're already gone
And I'm guessing that the new you
Is not the one

It's like I'm talking to your twin
Talking to your twin
Talking to your twin sister

When all I want is you
All I want is you
All I want is you

All I want is you
All I want is you
All I want is you

First you're hot then you're cold
Mary Kate
Ashley O
Either super high or super low

DNA déjà vu
New update version two
I don't want this copy paste of you

Parent trapping every day doppelgänger
You've been pushing me away heartbreaker
No you're really not the same as you once were
No you're really not the same

I swear

I can't tell the difference even when you're in my arms
It's not fair 'cause you're the only one I want

It's like I'm talking to your twin
Talking to your twin

Talking to your twin sister

Looks like I'm tangled up again
Tangled up again
'Cause you got me so twisted

And baby I don't wanna lose you
But you're already gone
And I'm guessing that the new you
Is not the one

It's like I'm talking to your twin
Talking to your twin
Talking to your twin sister

When all I want is you
All I want is you
All I want is you

All I want is you
All I want is you
All I want is you
