

# Let Go

**Johnny Thunders**

Oh everyplace I go I see your face in the crowd  
In the parking lot or in the lounge  
Standing on the corner with the rest of the kids  
I say what is it baby, what is it

Let go  
I don't know why you just don't blow

Oh what is it baby that drives you wild  
Radar love cause you're always around  
Following me never saying a word  
Looking hypnotically insane
