

## Empty Feelin'

Johnny Tillotson

I've got an empty feeling since you've gone  
And I don't feel as though I can go on  
I can't go anywhere, afraid I'll see you there  
Afraid I'll fall apart and then that empty feeling will start y  
ou're in my heart

I miss the lips I used to kiss each night  
I miss the arms that used to hold me tight  
The mention of your name just fills my heart with pain  
And so I fall apart and then that empty feeling just starts you  
're in my heart

I never knew how lonely night could really be  
Until I got this empty feeling deep inside of me

I miss the lips I used to kiss each night  
I miss the arms that used to hold me tight  
The mention of your name just fills my heart with pain  
And so I fall apart and then that empty feeling just starts you  
're in my heart  
I can't go anywhere afraid I'll see you there  
Afraid I'll fall apart and then that empty feeling will start y  
ou're in my heart
