

# Miss You Like I Do

Johnny Tillotson

If the streets were paved in roses  
And all the water wine  
I might not want you all the time  
And if every day was sunny  
And all the skies were blue  
I know I wouldn't miss you like I do

If there wasn't any nighttime  
For me to make it through  
Or any floors to be walking over you  
And if every day was yesterday  
When dreams could still come true  
I know I wouldn't miss you like I do

But I still do and I still cry  
And everything's the same  
I still wake up in the middle of the night  
And call your name

But every day was sunny  
And all the skies were blue  
I know I wouldn't miss you like I do  
I know I wouldn't miss you like I do
