

Got to Find My Baby

Johnny Winter

I've been lookin' all around, she can't be found
I've been lookin' high and low, where did she go?
I've got to find my baby
She's somewhere in this world, yes she is

You know I need her right away
Won't you bring her home to stay?
I gotta find that girl

I've been lookin' up and down, all over town
I'm so lonesome, I could cry, gonna call the F.B.I.
I gotta find my baby, she's somewhere in this world

You know that she's my lucky charm
I need her in my arms, I'm gotta find that girl

I gotta find my baby
I gotta find my baby

I've been lookin' here and there, you know I care
Now I got the blues, I'm wearin' out my shoes
I gotta find my baby, she's somewhere in this world

You know I need her right away
Won't you bring her home to stay?
I gotta find that girl

I've gotta find my baby
I've gotta find my baby
I gotta find my baby
I gotta find my baby, yes, I do
