

Rock & Roll

Johnny Winter

Let me tell you baby
Try to understand
You can never keep me
So you'd better use me while you can

I'm gonna rock and roll you baby
Roll you till the break come down, yeah
Know by then now people
There'll be some lovin' goin' on, yeah

Well I ain't no main man
Always on the road
Now I got a side-tracked woman
Most every place I go

You gotta rock and roll you mama
While I tell her gonna break come dawn
You know by then now people
Gonna be some lovin' goin' on

Gonna head on now, f**kin' roll!

I got time for it honey
Love like cherry wine
Match your feel like your four-wheel
Give eye sight to the blind

Gonna rock and roll you mama
Rock and roll you all night long
You know by then now people
Gonna be some lovin' goin' on
