

# You Must Have a Twin

Johnny Winter

You must have a twin  
You ain't told me about  
You must have a twin  
You ain't told me about  
I asked you to explain  
This things I'm findin' out

You say it wasn't you,  
Crawlin' up your steps  
Early in the mornin'  
With gin all on your breath  
You must have a twin  
You ain't told me about  
I asked you to explain  
This things I'm findin' out

You say it was another woman  
With the ribbons in her hair  
Dressed just like you was talkin'  
'Bout another man  
You must have a twin  
You ain't told me about  
I asked you to explain  
This things I'm findin' out

I ask so many things  
They all mean trouble  
You're either full of jive  
Or else you've got a double  
You must have a twin  
You ain't told me about  
I asked you to explain  
This things I'm findin' out

Yeah you must have a twin  
You must have a twin  
You got to have a twin  
You must have a twin  
Yeah you must have a twin  
You ain't told me about
