

## A Hard Years Christmas

JOHNNYSWIM

Have you been waiting?  
Have you been holding your breath?  
A hard year's behind us  
And God only knows what comes next  
Anticipation  
What used to thrill and delight  
Now feels like the dark  
Like the ache of that silent night

Hear angels carol on  
They sing of peace and joy  
So now let's lean in close  
And listen  
'Cause just like that manger holds  
A holy breath of hope  
We all are heaven's home  
To live in

So give into wonder and give into rest  
We only have so many Christmases left  
Mmh

Look to the children  
Look how they love to believe  
I wanna be like them  
And I don't see why I can't be  
If ever a season can break our darkness with light  
It's the one where the weary rejoice  
On that silent night

Hear angels carol on  
They sing of peace and joy  
Now let's lean in close  
And listen  
Just like that manger holds  
That live in breath of home  
We all are heaven's home  
To live in

Give into wonder and give into rest  
We only have so many Christmases left  
Mmh

Sing with the angels  
Sing with the angels  
Gloria, in excelsis Deo  
We only have so many Christmases left
