

## Drunks

JOHNNYSWIM

I wanna write a song the drunks all sing  
And the sober sing along  
One that's for the man in the ring  
To suddenly feel strong  
I wanna hear what the Angels played  
When they walked my daddy home  
I wanna write a song the drunks all sing  
And I hope you sing along

Oh, oh, oh  
Raise a glass and sing along

I wanna learn what David played  
When he found himself alone  
Let it ring, let it ring  
On every street and stage  
Till the loneliest feel known  
A melody my mama hums  
When I've forgotten my way home  
I wanna sing what David sang  
Oh won't you sing along

Oh, oh, oh  
Raise a glass and sing along

And If the walls of Jericho  
Could crash on down to just a tune  
I bet our walls could fall also  
Even if only me and you sing

Oh, oh, oh  
Raise a glass and sing along

What are we giving to our sons and daughters?  
What do we give if we ain't loving?  
What are we giving to our sons and daughters?  
If we can't love then we ain't learning  
What are we giving to our sons and daughters?  
What do we give if we ain't loving?

I wanna write a song the drunks all sing  
The sober sing along  
A song for you and me  
This is our song

What are we giving to our sons and daughters?  
What do we give if we ain't loving?  
What are we giving to our sons and daughters?  
If we can't love then we ain't learning  
What are we giving to our sons and daughters?  
What do we give if we ain't loving?  
What are we give, what are we giving?
