

What Have We Got To Lose

JOHNNYSWIM

The world is strange,
It's always changing
It's hard to call it by a name
And the sun gets low
And casts a shadow
I still see it with my eyes closed

What have we got to lose?
We'll never get back the time we borrow
What have we got to lose?
I hope we can make it till tomorrow
What have we got to lose?

When you're looking back
And losing track
Of everything you've seen and done
You can look ahead
And instead
Put your troubles on the run

What have we got to lose?
We'll never get back the time we borrow
What have we got to lose?
I know we can make it till tomorrow
What have we got to lose?

Hey what do we say to the dark you won't be taking all my heart
, not today, not today
Hey what do we say to the void, you won't be stealing all my
joy, not today, not today

What have we got to lose?
We'll never get back the time we borrow
What have we got to lose?
I know we can make it till tomorrow
What have we got to lose?
