

You And I

JOHNNYSWIM

We found love in a stormy sky
Never needed no reason why
Danger always was a friend of mine

When two hearts on fire collide
Call the preacher when the sparks will fly
You and me burning up the night

Like a tide to the shore
I'm always back for more
'Cause we are, we are,

We are!

You and I
We're fire and water
You and I
We're rain and thunder
You and I
There is no other
You and I

You and I
We're waves on the ocean
You and I
Stars in slow motion
You and I
I'm lost in place
You and I

You, you, you, you and I.

Tell me where we're gonna plant these seeds
I come climbing up your apple tree
Can you take me to your garden please

I always said I was a rolling stone
You're tearing down every wall I've known
March me round like Jericho

Like tides to the shore
I'm always back for more
We are, we are,

Oh, we are!

You and I
We're fire and water
You and I
We're rain and thunder
You and I
There is no other
You and I

You and I
We're waves on the ocean
You and I

Stars in slow motion
You and I
I'm lost in place
You and I

You, you, you, You and I. [X2]

Take me back home
There's no place I'd rather be
Or go go

Take me back home
There's no place I'd rather be
Oh no no

Oh,

You and I
We're fire and water
You and I
We're rain and thunder
You and I
There is no other
You and I

You and I
We're waves on the ocean
You and I
Stars in slow motion
You and I
I'm lost in place
You and I

You, you, you, You and I [X2]
You, you, you, you
It's you and I

There is no other
Never be another
It's you and I
