

# All They Ever Wanted

Johnossi

Rotten trees outside the city  
They've been there for years  
And that's all they ever wanted

Shallow figures within the city  
They've been there forever and ever  
And that's all they ever wanted

Don't follow me into the city  
I won't show you a good time  
I won't take you out dancing

Wouldn't it be nice to be stuck in the forest  
Like an old rotten tree with no need or wanting

Guns were made for disturbing the peace  
People in the city will never all agree  
On what they ever wanted

Some people think we all should have just one task  
And some people don't think before they ask  
Or everything they ever wanted

People in the city will never all agree  
On what they ever wanted
