

# Blood

Johnossi

Downset to 45  
My lover's got innovations  
She's gonna lick this blood of mine  
And I'm getting a new sensation  
She's setting up rules and  
I can feel it, I'm feeling it now  
She's bringing me tumors  
Oh it's killing, it's killing me now

Hey won't you come around to me, if you want my blood  
Hey won't you come around to me, if you want my blood  
Keep treating me like I'm your animal  
My blood will get you high  
Hey won't you come around

Black leather, silver suns  
I'm getting a brand new lesson  
She's gonna lick this blood of mine  
While rubbin' her treasures  
I'm a genie in a bottle baby  
Back from 1999  
Been working for days now  
While you're playing, you're playing with guns

Hey won't you come around to me, if you want my blood  
Hey won't you come around to me, if you want my blood  
Keep treating me like I'm your animal  
My blood will get you high  
Hey won't you come around, if you want my blood  
Hey won't you come around

I'm bleeding for you my love  
Keep turning to light from dark  
You know I've been waiting here so long  
For you to come around

Hey won't you come around to me, if you want my blood  
Hey won't you come around to me, if you want my blood  
Keep treating me like I'm your animal  
My blood will get you high  
Hey won't you come around, if you want my blood  
Hey won't you come around

Keep treating me like I'm your animal  
My blood will get you high  
Hey won't you come around, if you want my blood  
Hey won't you come around
