

## For A Little While

Johnossi

We built upon, soldiers in the ground  
For a little while, For a little while, For a little while  
You rest upon, an island in july  
For a little while, For a little while, For a little while

And if I tell you this, will you laugh it at me now  
And if you steal a kiss, should I be grateful to you now

Well I burn my skin, looking in into the sun  
Hmmm  
And it makes me smile  
For a little while, For a little while, For a little while  
Makes me feel alive  
For a little while, For a little while, For a little while

I'm grinding meat, preparing for tonight  
Thinking 'bout the cow, Thinking 'bout the cow, Thinking 'bout  
the cow  
Go climb a tree, enjoying a new hive  
For a little while, For a little while, For a little while

And If I tell in time, back to rule that's very small  
Would you meet me there, would you care for me at all

Well I go through this, staring into the sun  
Hmmm  
And it makes me smile  
For a little while, For a little while, For a little while  
Makes me feel alive  
For a little while, For a little while

Oh for a little while  
For a little while...  
For a little while  
For a little while..

We built upon, soldiers in the ground  
For a little while  
For a little while  
For a little while
