

## Got Your Gun

Johnossi

When the ghost said, I got your gun  
Then I've got none  
When the ghost said, I got your gun  
Then I've got none

Faced the living dead hiding in the sun  
Nowhere to run  
Then my mama said, grab your gun  
You show them son  
How to use that gun

You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some

Faced the living dead hiding in the sun  
Nowhere to run  
Then my mama said, grab your gun  
You show them son  
How to use that gun

You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
All of the fear is reality here  
Somebody took your soul but you've got your gun

Such a little earth, ain't worth nothing  
Thinking my life is an illusion  
Live in a total mass confusion now  
Such a little earth who's pulling strings  
Live in a total mass confusion  
Thinking my life is an illusion now

You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
You're gonna get what you're gonna get  
You're gonna bleed and connect  
Then you will get some  
All of the fear is reality here  
Somebody took your soul but you've got your
